SCOPE OF WORK & SERVICES TO BE RENDERED

This project shall be divided into four (4) phases as hereunder: -

1. Supply of Tally Server 9 Software & Installation of Tally Software & Tally Server Software on central server at Server provided by NSIC

2. Integration of Tally with NSIC’s existing RMA Software: -
   
   i. **Current Scenario:-**
      
      Raw Material Assistance Scheme – It is a scheme through which NSIC provides Raw Material Assistance to MSME units against the security of Bank Guarantee provided by the MSME unit. The RMA Software captures all the necessary information of a unit seeking credit assistance from NSIC and also calculates the interest charged on such assistance provided to the MSME unit. The RMA Software is already developed and operational in the Corporation. However, there is no transactional interface available between the RMA Software and Tally ERP 9. As such, there are double entries made in both the softwares.
   
   ii. **Requirement:-**
      
      Tally needs to integrate with the RMA software on the Payments (disbursements made to the MSME unit seeking assistance from NSIC), Receipts from the unit (repayment of interest + principal + processing fee etc.). All monetary transactions would be entered in Tally and the same would flow to the RMA Software (to and fro) on real time basis. The authorisation of payments made has to be in 2 fold basis in which the first step would be generation of a payment voucher printing of the same and in the second step the same needs to be confirmed after the payment is debited in the bank account. After completion of both the steps the data set would flow back to the RMA software and debit the unit ledger there with the date of payment as per the Bank Statement. The flow of data is explained in the diagram below:-
A - Information from RMA Software to be saved in Temporary File and to be pushed to Tally for making payments

- RMA Disbursement Unit
- A - RMA Payment Sanction Note
- Unit ID, Unit Name, Pan, GSTIN
  - BG Value
  - Vacant Limit

• Payment Voucher No. (As per Tally)

Check - Payment Actually Made should be less than or equal to the vacant limit

• Bank Reconciliation and Payment Confirmation
• Replace payment actually made by the bank statement value which has been debited
• Replace date of release of payment made from bank statement debit date
• Replace payment voucher no from the Payment Voucher No generated in Tally
• API integration with Bank (different commercial banks) and Tally for real time data flow

D – Updation of RMA Software from Tally ERP

3. Uniformity of Chart of Accounts across NSIC Field Offices as per requirement:
   
i. Uniformity of Chart of Accounts as per NSIC COA (to be provided by NSIC during Pre-Bidding process)
   
   ii. Consolidation & Integration of accounts at all field offices with Head Office so that consolidated Trial Balance, Profit & Loss Account including activity wise Profit and Loss (Commercial) Accounts, Income & Expenditure (Promotional) Accounts, Additional notes to Accounts, Provisioning statements & Trial Balance, Balance Sheet, Cash Flow Statements, Schedules to Final Accounts as per requirement of the Corporation and as per Schedule VI, Indian Companies Act, 2017 & Indian Accounting Standard (IAS) can be generated

   iii. Creation & Configuration of Accounting, Inventory, Tax Masters etc. according to COA provided by NSIC, with restrictive access and pushing down it to all Field Offices for uniformity of COA
iv. Migration of legacy data from tata-EX / Tally Accounting software from 31.03.2017 onwards and mapping of migrated data with COA.

v. Implementation of existing features of Tally Software along with Tally Solutions as per NSIC requirements to be available across all accounting units

4. MIS Report Generation:

   i. Customised report generation as per NSIC Management’s Prescribed Formats have to be generated from Tally out of the data which is entered in Tally
   ii. Category wise purchase-sale from vendors eg. Medium/Small/Micro/General/ SCST/ Geographic region wise, Branch/ Zone wise etc.
   iv. NTSC/ NTSEC training reports - category wise for different courses
   v. Statutory compliance reports – GST, Income Tax etc.
   vi. Routine functional changes that include creating new formats and configuration of reports. (Flexible reports)
   vii. Financial Reports as per NSIC prescribed formats

5. Testing, Implementation & AMC

   5.1. Test run of entire scope of work would be on for 6 months during which the Vendor will provide unconditional support and fix all problems, to the satisfaction of NSIC.

   5.2. For smooth operation of Integrated Software package, annual maintenance contract for 1 year from date of successful completion of six months test run shall be provided by the Vendor to NSIC. During this period there might be addition/deletion of field offices in Tally which needs to be integrated.

   5.3. The AMC shall include the following components:

      i. Technological Support and Operational Training required by any NSIC staff regarding the Integrated Software package or integration related issues.
      ii. After the implementation of the integrated software system any issue arising in any NSIC field office/Head Office needs to be resolved either through Team Viewer / any other RDC application or by onsite visit.
iii. If due to any statutory changes any functional requirement arises, the same needs to be fixed in a timely manner so that the day-to-day functioning of NSIC is not hampered.
